

MANAGED PAY

The Simpler Management Of Your Technology Expense

\$23

SAP Concur says it costs on average \$23 to cut a single check

Up 40%

Add the amount of **time spent logging into a carrier portal, reconciling the invoice and submitting proper paperwork**, the cost can rise an incremental 40%

\$32

This yields an **average total cost of \$32 per invoice**

Multiply that by 4,000 or more **invoices worldwide, every month...** and **what are we talking about?**

\$1,536,000 / year

Now factor in when a **payment is misapplied**. The logging in, finding the invoice, calling, waiting on hold, getting transferred, connecting to someone who cannot help. **What is this all worth?**

There is an easier way. MDSL offers Managed Pay to go along with our current Managed Services to remove all of these headaches. Our management of the process from end to end ensures fewer parties are involved, less transfers of data occurs, and accuracy and efficiency improves.
